Approaches

# GPA eLearning

Dementia care education. Anywhere. Anytime.

## ▶ What is GPA eLearning?

GPA eLearning is an adapted version of our standard GPA Basics dementia education curriculum. It guides participants to better

understand dementia and responsive behaviours in order to respond respectfully and safely to patients, residents or clients in community/health care settings. The online format allows participants to learn at their own pace at a convenient time.

GPA eLearning includes **key content** from the GPA Basics curriculum delivered via short **video tutorials** from the four

modules in a GPA Basics Education session, as well as demonstration videos on respectful self-protection when faced with responsive behaviours. It is an engaging learning experience, based on adult learning principles, enriched through vibrant graphics and professional narration. Following along in the GPA eManual (available for download at no charge at the start of the program) participants review video segments and complete online matching activities at the end of modules 1, 2 and 3. Module 4 is delivered in the same video format and demonstrates respectful self-protection and gentle redirection techniques. **Time to Complete GPA eLearning:** 2 to 3 hours.

## ▶ Who can take GPA eLearning?

GPA eLearning is available to care providers interacting with older adults and/or persons with dementia.

## GPA® eLearning Group Pricing\*

Number of participants	1 – 24	25 – 99	100 – 199	200 – 399	400 – 499	500 – 999	1,000
