

# GPA eLearning

Dementia education. Anywhere. Anytime.

**AGE** | Advanced Gerontological Education

Enhancing the care of older adults by learning together

# What is GPA eLearning?

GPA eLearning is an adapted version of our full-day (7.5 hours) GPA Basics curriculum. It guides participants to better understand dementia and responsive behaviours in order to interact respectfully and safely with patients, residents or clients in health and community care settings. The online format allows participants to learn at their own pace at a convenient time. GPA eLearning is ideal for care providers working with older adults and/or persons living with dementia.

## Key Content

GPA eLearning includes key content from the 4-module (7.5-hour) GPA Basics curriculum, delivered via short video tutorials. It is an engaging learning experience, based on adult learning principles and enriched through vibrant graphics and professional narration. Following along in the GPA eManual (available as a download at the beginning of the course), participants review video segments and complete online matching activities at the end of Modules 1, 2 and 3. Module 4 is delivered in the same video format and demonstrates respectful self-protection and gentle redirection techniques.

## Session Objectives

*At the end of their GPA eLearning session participants will be able to ...*

- ✓ Effectively apply the knowledge gained to the direct care of patients, residents or clients.
- ✓ Integrate GPA principles, strategies and techniques into care plans.
- ✓ Use communication and collaboration skills to enhance their contributions as leaders and team players.
- ✓ Help facilitate a cultural shift to person-centred care strategies.

**Session Time:** 2 to 3 hours.

**What's Required?** PC or Mac. For the best experience, the Chrome browser is recommended. Internet speed 400 Kb/s. GPA eManual included. For the best audio experience, we recommend the use of headphones (not included).

GPA Learning is not intended to replace the full-day GPA Basics or Integrated GPA (iGPA) curriculum. The GPA Certified Coach Delivery Model remains the preferred/recommended method.

**TIP!** AGE recommends that GPA eLearning be completed in one sitting to ensure learning continuity and strong knowledge retention.

## GPA eLEARNING PRICING

**NOW \$45.00 per person**

(Reg. Pricing \$90.00 each)
