

Updated guidance on delivering in-person GPA sessions as COVID-19 continues

Comprehensive Guidance: Ontario's Infrastructure Health & Safety Association™'s ([IHSA.ca](https://www.ihsa.ca)) guidance on in-person classroom training during COVID-19 is a helpful mix of resources, tips and best practices to help employers and employees in any province or territory prevent the spread of COVID-19. AGE is currently working on specific guidelines to assist you in delivering in-person GPA education sessions (stay tuned!) Remember, you must receive approval from your organization to commence in-person GPA education sessions *and* ensure practice at the sessions satisfies any new/modified health and safety policies related to COVID-19 and small-group gatherings. The GPA curriculum and materials are designed to ensure standardization and consistency of session facilitation. In planning a session, GPA CCs must ensure they are provided with sufficient physical space, participant PPE supplies and support from their organization to maintain safe interactions during activities, as set out in the GPA curriculum.
