

What is GPA Bathing?

Working together to enhance bathing care for persons living with Responsive Behaviours/Personal Expressions

- Six eLearning units and resources
- A complementary curriculum following GPA
- Applies GPA knowledge and skills in a bathing context
- First two eLearning units were piloted among 455 4th-year Ryerson University nursing students.
- Feedback contributes to building the remaining four eLearning units.

(images below are taken from the first two GPA Bathing eLearning units.)
